# IB End-of-Exam Days May 2022

Although an international education for which final results are not issued until July 6, the IB Department at Hasseris Gymnasium follows the graduation traditions of the Danish Upper Secondary School (stx). This means that on the days when IB candidates finish their final exams, tables will be set up in the central area or the white wing of the school for families to celebrate right after the candidates leave the exam room. This is also the time when candidates may choose to put on their student caps for the first time to mark the completion of exams. These are usually very festive days with flowers, champagne and many tears of relief and pride...
